HANDLING & STORAGE

Handling	Phenylmagnesium Bromide should only be handled under inert gas atmosphere. Avoid contact with eyes, skin and clothes as well as inhalation. Never add water, acids or oxidizing materials to the product. Vapors may form explosive mixtures with air. Vapors are heavier than air and may spread along floors. Flash-back possible over considerable distance. Use only explosion-proof equipment. Take measures against electrostatic discharges. Protect from frost, heat and sunlight. In case of fire use dry extinguishers based on sodium chloride or limestone powder, never use water or CO ₂ . Pay attention to the Safety Data Sheet.
Storage	Phenylmagnesium Bromide should be stored in tightly closed containers under exclusion of air and humidity. When stored according to SDS the material is fairly stable. We still recommend to retest the material 6 months after date of analysis if included on CoA. If not included, use the date of manufacturing for the calculation
