

MARK MUMMERT

Chief Operations Officer

Mark Mummert is the chief operations officer for Albemarle. In his role, Mummert leads the resources, manufacturing, capital projects and supply chain teams in a fully integrated operating model that is centered on safety, quality, customers and continuous improvement.

Mummert joined Albemarle in 2019 as chief operating officer for the Energy Storage business. Before joining Albemarle, Mummert held progressive leadership roles in supply chain and global operations at FMC Corporation. His industry experience also includes 20 years with Rohm and Haas Company in various manufacturing and engineering roles. Additionally, Mummert spent time with The Dow Chemical Company where he improved S&OP in supply chain and embedded operational excellence principles at manufacturing sites.

Mummert serves on the board of directors for Talison Spodumene Mine at Greenbushes, Western Australia. He earned his bachelor's degree in chemical engineering from Widener University.

About Albemarle

Albemarle Corporation (NYSE: ALB) is a world leader in transforming essential resources into critical ingredients for mobility, energy, connectivity, and health. We partner to pioneer new ways to move, power, connect and protect with people and planet in mind.
