

INTRODUCING KF 774 PULSAR™

KF 774 joins KF 787 in Albemarle's growing PULSAR™ Catalyst Platform

KF 774 leverages PULSAR™ active phase technology, with superior HDS/N/A activity for medium and medium-to-high pressure ULSD production. The PULSAR™ Catalyst Platform provides outstanding activity, stability and flexibility in operation for all middle distillates hydrotreaters.

Albemarle delivers tomorrow's catalyst technology solutions today.
